

Please prevent the potential displacement of our local K-LOVE stations by an LPFM broadcaster. K-LOVE is an uplifting family oriented positive influence on our community. I know of other listeners beyond myself who benefit throughout the day from its message of hope and love. We need to retain these rare providers of wholesome values over our airwaves. If K-LOVE is displaced, our community would only be able to receive commercially funded radio which SIGNIFICANTLY interferes with the quality of life offered by K-LOVE's listener supported approach. Commercial free listening assures a positive spiritual view is retained consistently throughout the programming. We need more, not less, programming like this which builds us up and promotes morality. Thank you for your sincere consideration of our petition. God bless.
